PROFESSIONAL SUMMARY

Senior software engineer with 6+ years of experience leading full-stack teams to build scalable web and mobile apps. Proficient in React, Angular, Node.js, Java Spring Boot, and MongoDB. Drives technical strategy, mentors developers, enhances UX, and delivers AI-powered, cloud-native solutions.

EDUCATION

POST GRADUATE CERTIFICATE

Lambton College, Mississauga, Ontario

Computer Software & Database Development | GPA: 3.7/4.0

January 2021 – August 2022

BACHELOR DEGREE

Gujarat Technical University, Ahmedabad, Gujarat

Information Technology | GPA: 3.0/4.0

August 2015 - May 2019

EXPERIENCE

Software Engineer III, LexisNexis, North York, Ontario

March 2025 – Present

- Leading a team of 4 engineers, mentoring them, and optimizing development workflows.
- Architecting and developing a custom Fluent UI component library to enhance UI consistency and reusability.
- Building Microsoft Word add-ins using React.js and Micro Frontend Architecture for seamless integration.
- Boosted system performance by 20% through code refactoring and modular design improvements.
- Implemented best practices for code reviews, unit testing, and accessibility compliance, ensuring high-quality deliverables.

Software Engineer II, LexisNexis, North York, Ontario

May 2023 – February 2025

- Provided technical guidance and mentoring to junior team members, resulting in a 15% increase in overall team productivity.
- Identified and addressed technical debt and architectural improvements, enhancing system performance by 20%.
- Conducted code reviews to ensure code quality and adherence to coding standards.
- Continuously updated skills with the latest technologies and best practices.

Software Engineer I, AppFabs Inc., Mississauga, Ontario

September 2022 – April 2023

- Developed unit and integration tests using React-Testing-Library and Jest, reducing bugs by 30%.
- Built a Microsoft Word add-in using React, OfficeJS, and Fluent-UI.
- Created an Admin Centre with Angular 15 and Angular Material, improving admin efficiency by 25%.

Software Engineer, Code Symphony LLP, Jamnagar

September 2019 - December 2020

- Designed and developed 5+ full-stack and front-end web applications using modern UX frameworks.
- Implemented Redux state management to optimize site performance by 25%.
- Mentored five interns, boosting their coding efficiency and productivity.
- Enhanced product efficiency by 30% through pair programming and code reviews.

SKILLS

Programming Languages: JavaScript, Python, Java, C#.NET

Frameworks and Libraries: React, React-Native, Angular, Node.js, Java Spring Boot

Tools: Git, GitHub, Jira, Redux, Redux-Saga, Redux Toolkit, AWS, Heroku, Kubernetes, Typescript

Databases: MongoDB, MySQL

Soft Skills: Decision Making, Problem Solving, Leadership, Strategic Thinking, Communication Skills, Interpersonal Skills

Languages: English, Hindi, Gujarati (Native)

PROJECTS

Backend Engineer, [DevCamper API](#), Mississauga, Canada

May 2021 - August 2021

- Implemented REST APIs using Node.js, Express, and MongoDB, securing the application with packages like express-mongo-sanitize and helmet.
- Improved performance by 10% through writing reusable and efficient code.

CERTIFICATIONS

- [Google Cloud Fundamentals: Core Infrastructure \(GCP\)](#) | Coursera | April 2020
- [Python Data Structures](#) | Coursera | April 2017
